

Minutes of Meeting (Webmobril Technologies)

Meeting time: 07/02/2024, 09:00 PM (AEST) ----- 07/02/2024, 04:30 PM (IST)

Meeting Type: Initial call on Construction Checklist App

Meeting Attendees: Saba, Kushagra, Shabidh, Neha, Akanksha

Agenda:

1. Discussion on the features and functionalities of **Construction Checklist App**.
2. Understanding the specific requirements for App.

Our Understandings:

- The client is looking to build a construction business app with checklists for tasks that site supervisors need to complete and sign off on.
- Incorporate role-wise access levels for supervisors, site managers, and other team members.
- Support cross-platform accessibility on computers, smartphones, and tablets.
- The app would have different checklist templates for different construction stages like slab, framing, enclosed, handover etc.
- The client wants the ability to assign checklists to different users based on their roles.
- It will facilitate seamless communication and collaboration by allowing users to access the application remotely.

(Note – Kindly go through the MOM and connect if any changes required)
