

## **Minutes of Meeting (Webmobril Technologies)**

Meeting time: 24/01/2024, 12:00 AM (EST) ----- 24/01/2024, 01:00 AM (EST)

Meeting Type: Initial call on iOS Workout App

Meeting Attendees: Rapheal, Akanksha, Shabidh, Neha and Deepanshi

### **Agenda:**

1. Discussion on the features and functionalities of **Workout App on iOS platform**.
2. Understanding the specific requirements for App.

### **Our Understandings:**

- Required to design and develop a Fitness app for IOS platform.
- App should allow user to use the application with verbal commands for these activities such as to start the app, workouts and end the app.
- The app should aware of the gym location, recommends specific workouts based on machine availability and user preferences, offering personalized exercise routines.
- The app recognizes exercise types, sets, and reps, providing real-time audio feedback.
- Admin will be able to track the users, activities and history of the workouts.

**(Note – Will connect shortly once we are ready with the detailed proposal, Please so assist on any other changes on the above application)**
